

2nd Annual Conference

Collect, Connect and Prevent: Overview of the Successful Behavior Intervention Process at Buffalo State College

Charles B. Kenyon, Associate Vice President and Dean of Students

Ronald A. George, Senior Counselor and Case Manager, Counseling Center

Buffalo State College

Collect, Connect and Prevent is the charge given the Buffalo State College *Students of Concern Care Team*. This presentation will provide an overview of protocols and procedures used by the Care Team to assess and respond to the potential risk to personal and campus safety that might result from the actions of individual students. Emphasis will be given to how the Care Team ***collects*** information about students who pose a safety concern; ***connects*** information into an assessment of risk and ***prevents*** possible harm by either assisting or removing the student. Case studies will be used to present sample incidents for review and discussion.
