

2nd Annual Conference

Three Case Studies in Psychological Assessment and How the Information is Used by BIT

Brian Van Brunt, Director of Counseling and Testing

Michael Crowe, Chair of Campus Partners Team, Director of Judicial Affairs

Kenneth Johnson, Coordinator of Student Activities and Organizations

Western Kentucky University

This program will review three individual cases that came up on our campus partners (BIT) team during the year. We will review how each case was mandated to an on-campus psychological assessment, what tests and clinical interview questions were used, how this information was collected and put into a report/letter for the team and judicial affairs to guide the outcome of the case. We will also discuss how the team and judicial affairs uses this information to better make decisions and provide support for the student in question. This will be an interactive session with a strong emphasis on discussion and practical application.
